## **MISSISSIPPI ACADEMY OF FAMILY PHYSICIANS CONTINUING MEDICAL EDUCATION POLICY ON FULL DISCLOSURE**

The Mississippi Academy of Family Physicians (MAFP) requires the following disclosures for all MAFP CME activities:

### **Disclosure of Financial Relationships**

The existence of any significant financial interest or other relationship a faculty member has with the manufacturer(s) of any commercial product(s) and/or providers of commercial services discussed in this educational presentation shall be disclosed. The existence of any such financial interests or relationships is not inherently bad or wrong, but shall be disclosed to participants prior to educational activities in brief statements, in conference materials such as brochures, syllabi, exhibits, poster sessions, and in past meeting publications. When written disclosure has not been made as described, the moderator of the activity shall make disclosure after consultation with the faculty member or a representative of the supporter. Written documentation that disclosure information was given to participants shall be entered in the file for that activity.

For example:

**If Dr. Doe is speaking on migraine headaches and currently has an affiliation with XYZ Company and ABC Company:**

John Doe, M.D. has disclosed that he participated on a national headache research panel founded by XYZ Pharmaceutical and received honorarium from ABC Pharmaceutical for participating in their speakers' bureau on the subject of headaches.

**Or, if Dr. Doe has financial interest/arrangement\***

John Doe, M.D., has disclosed that he holds stock in XYZ Pharmaceutical, and has participated for ABC Pharmaceutical as an expert panel member on clinical topic.

*Financial interest/arrangement is defined as being a shareholder, consultant, grant recipient, research participant, employee and/or recipient of other financial support.*

**Or, if Dr. Doe has no affiliation:**

John Doe, M.D. has indicated that he has no relationships to disclose relating to the subject matter of his presentation.

**Or, if Dr. Doe failed to return his form:**

John Doe, M.D. has not returned the disclosure form as of this printing.

The intent of this policy is not to prevent a speaker or author with an affiliation or financial interest from making a presentation. This information shall be identified openly, so participants have full disclosure of the facts and may form their own judgments about the presentation. The "sunshine" test is the guide for decisions about what to disclose. Any affiliation(s), if made known to the general public, that would cause embarrassment to the individual or institution, or could be perceived as unethical, must be disclosed.

### **Disclosure of Unlabeled/Investigational Uses of Products**

Faculty shall disclose when an unlabeled use of a commercial product, or an investigational use not yet approved for any purpose, is discussed during an educational activity. Faculty shall disclose that the product is not labeled for the use under discussion or that the product is still investigational.

The intent of this policy is not to prohibit or limit the exchange of views in scientific and educational discussions, including discussions of unapproved uses, but to ensure that faculty discloses to participants that such discussion will take place.

It is standard procedure of the Academy to acknowledge the type of disclosure – i.e., nothing to disclose, affiliation(s) and/or financial interest(s) disclosed, that unapproved or investigational uses of products will be discussed, and failure of faculty to make disclosure by the established deadline. Failure to disclose or false disclosure may require the MAFP to identify a replacement for faculty participation.
